DOMAINE
GUILLAUME CABROL

The Cabrols are a wine-growing family with a domaine that has been passed down from father to son for four generations. The domaine and its 17 hectares of vines are located in the small village of Castelnau de Guers, which is in the northern part of the Picpoul de Pinet AOC and is in the process of becoming a “cru village” of the Languedoc. The domaine practices sustainable viticulture and is certified by Terra Vitis. The Mediterranean climate and the fact that they harvest at night protects the aromas and freshness of the wine. Estate bottled.
